May Term Supreme Court.

The May term of the Supreme Judicial Court opened here Tuesday forenoon with the usual formalities. They were in fact more impressive than spectators are accustomed to witness in the temple of justice at South Paris. The crier and clerk evidently intended that they should be and succeeded to everybody's satisfaction.

Mr. Hammond, though having recently recovered from a serious illness, gave the customary proclamations in splendid voice and manner, and apparently enjoyed the deep impression he made. In his prayer Rev. Mr. Hammarford feelingly alluded to Mr. Hammond's recent illness and happy recovery, which evoked universal sympathy.

Fred O. Eaton of Rumford was elected foreman of the first jury and Randall L. Taylor of Mexico, foreman of the second. Both will make excellent officials. It was an unusual honor for him as he was drawn out of the spectators as talesman to complete the second panel, and his associates unanimously selected him to be the spokesman.

The longest trial yet seen at any term in this county was the result of the call of the docket, and evidently the lawyers in this section are determined to try everything in sight. Several attempts were made to get cases assigned in the third week, but Judge Peabody would not assign any case later than Friday of the second week though the court may and will probably hold into the third week. The first cases to be tried are three actions against the Union Water Power company of Lewiston to determine the title to several tracts of land in the unorganized township in the northern part of the county. They involve questions of law as well as fact and will be ultimately carried to the law court.

The action of Persian V. Everett against the trustees of Hebron Academy has been settled and was entered "Neither Party" on the call of the docket. The officers in attendance are Eben A. Boer of Rumford, Deputy Sheriff Wm. A. Perkins of Mexico, Deputy Sheriff H. L. Elliott of Rumford is away in Massachusetts after a criminal bid, will be back, Thursday, and serve the rest of the term. Jailer W. L. Farrar is also in attendance and will return home the latter part of the week.

The court is being held in Odd Fellows hall, which is finely fitted up and has ample accommodations. All are agreeably surprised at this for those out of town were not expecting it. Every one of Rumford Falls man whom a court official meets greets him with a genial smile of satisfaction. His dream of the future eminence and prosperity of his village is in part realized. It has become with Paris a shire town, a part of the head of the county, as it has for a long time been its chief business center. Now to have the place grow into a city, and the average Rumford Falls citizen's happiness is complete.

The reception to Judge and Mrs. Peabody. Tuesday evening, at the opera house filled the hall to overflowing. Many of the ladies wore elegant costumes and the gentlemen dress suits. The hall was finely decorated and music was furnished by the band.

Joe Jones and Tom Barnes of South Paris, the princes of traveling men, were here Tuesday night. Joe said to a listening crowd that always delight to hear his pointed remarks that he never had so much respect before for the people of Rumford Falls but it was chiefly owing to seeing so many South Paris and Norway citizens among them.

The most important case to be tried this term is a \$5000 damage suit against the Oxford Paper Company, in which the action is brought for Lulu, widow of George Perkins, through his father, as administrator. Perkins was employed at engine No. 4, in the mill and was instantly killed last November by being struck on the head, it is alleged, by bolts projecting from the so-called "Jackson Hooks" with which a large speed belt revolving above his head was fastened at the ends. Matthew McCarthy and Judge W. H. Newell of Lewiston represent the plaintiff and Attorney Gardner of Boston will appear for the defendant company.

Other cases assigned are: Margaret E. Linnell vs. Union Water Power Co. of Lewiston; Herick & Park for plaintiff, White and Tardiff for defendant; L. A. Bisbee vs. E. F. Ohlde, a boundary case; Gleason and Blanchard for plaintiff, John B. Swasey for defendant; W. V. Lee vs. Philip Ash, McCarthy for plaintiff, Swasey and Stephenson for defense.

Tuesday evening a brilliant gathering of the best known people in Oxford county assembled at Rike's Theatre for a tender judge and a good orchestra. During the reception Judge Peabody is presiding over the May term of the Supreme court. The hall was decorated with potted plants and flags under the direction of Mrs. A. B. Morrison, Mrs. R. T. Parker and Mary Hegarty, who acted as sub-committee to assist the committee appointed by the local board of trade, which included L. W. Blanchard, A. B. Morrison and R. T. Parker. Ushers presented the guests to the receiving line, which included Judge and Mrs. E. C. Peabody of Belfast, Col. and Mrs. G. D. Bisbee, Nahum Moore, the local board of trade's president, and Mrs. Moore, and the three selectmen, Arthur Gauthier, E. L. Melcher and W. V. Kimball, who were accompanied by their wives. During the reception hours an orchestra stationed on the stage discoursed choice music, and delicious punch and crackers were served from three tables conveniently stationed about the hall. Twelve highly talented young women served at the tables. Leading lawyers and their wives from all over the county were present.

Buildings Burned in Town of Mexico. Five buildings in Mexico, including the opera house, a laundry, blacksmith shop, two stonemason houses and an office were burned Saturday. The loss, which was total in each case, is estimated at \$30,000 and the insurance aggregates \$21,500. The buildings were situated on River street, just across the river from the large mills of the Oxford paper company.

\$50,000 Fire at Harrison.

Principal Business Industry Wiped Out—A Heavy Blow to the Beautiful Village—The Sky Lighted up by the Flames.

With inadequate water supply, no fire apparatus except a bucket brigade, the town of Harrison has reaped its harvest of fire. The losses to this bustling little village are as great in proportion as the big Norway fire was to that town. Every industry in the village, every place of business except one and three dwelling houses badly scorched, a total of eight buildings in all, consumed in the space of one hour and ten minutes, is the record of a fire that has converted a pretty country village to a mass of broken and twisted iron, charred timbers and ashes. Only the providential lack of wind prevented the entire residential district from being destroyed.

An eye witness tells the following story of the fire from its start to the end: At 7:30 o'clock, Tuesday night, fire was discovered in the dry room of C. S. Whitney Co. chair factory, the principal business industry of the village. The alarm was given, but almost before the bucket brigade could assemble the fire had spread so rapidly that it enveloped the entire building and was commencing to spread in both directions.

Realizing that there were no means of stopping the onrush of flames with the crude and ancient system of passing buckets from hand to hand help was summoned from Bridgton, that village responding with a steam fire engine and hose wagon, the two pieces arriving about 8:30 o'clock and together with the aid of a volunteer corps of fire fighters from Bridgton Academy, prevented a further spread of the flames.

From the chair factory the flames leaped across to the Calvin Baptist Baptist church, the Jordan store and the George Ross blacksmith shop. Backing up the fire enveloped the Riker block and the post-office, while from the church it spread to the Odd Fellows block, and the stretch of woodland on the outskirts of the village, but this latter blaze was quickly extinguished by local firemen.

From the Odd Fellows block the flames spread to the dwelling houses of Postmaster C. L. Laug, and Howard Sampson, both of which were seriously damaged on the outside, but which were preserved from total destruction by the efforts of the Bridgton Academy boys. Laug's house took fire six or seven different times, but the boys refused to give up, and in spite of the intense heat and the danger from falling trees, chimneys, and the burning spire of the church, managed to eventually check the spread of the flames.

The Grange Hall and the residence of Ralph Burnham were threatened several times, but by means of a small garden hose attached to a steam pump belonging to Horace Caswell, the property was saved.

Despite the danger from falling walls, no one was injured except Fred Pitts, who injured his ankle, while endeavoring to save some of the property in Odd Fellows Hall.

Help in the shape of volunteers, as well as throngs of sightseers came from Naples, Songo and all surrounding towns, while Harry Brown broke the auto record and exceeded the speed limit by driving his machine from North Waterford to Harrison in 20 minutes.

The losses are as follows: C. S. Whitney & Co., \$25,000, no insurance. Ricker Block, loss on building \$1000, insurance \$1000; F. H. Ricker, general store valued at \$5000, partial insurance \$2500; Fred Lamb, barber shop, loss \$550, insured.

S. Whitney Co. will not be rebuilt. The mill made a specialty of Morris chairs and employed about 40 men in the busy season.

Your correspondent, having occasion to visit the High school room, Monday afternoon, found both stoves smoking badly. Appropriate words were spoken by Rev. Mr. Newport to which the receiving clergyman graciously responded. Singing by the choir, solos by Gussie Wardwell, Ida Stone and Leonard Stone, recitations by Florence Eaton and Rev. E. S. Farnsworth filled a pleasing half hour, after which a most appetizing collation was served by the church ladies. The vestry was beautifully decorated with the national colors and potted plants. A feature of the evening's entertainment was an essay on the Nobility of Man by Percy Adams, which was much appreciated by the sterner sex and plainly set forth the vanity and self esteem which Adam of old bequeathed to his children since the world began.

HYRANT'S POND.

Summer Sessions.

Summer Sessions, one of Maine's best known veterans, died here last Sunday morning from a painful and long standing complication of diseases, at the age of 88. Mr. Sessions by reason of his personality, his unusual memory, hospitality and powers of narration, had a wide circle of friends and was the subject of a number of magazine stories. Mr. Sessions was born at Milton, N. H., in 1811, one of a large family. When Summer was 18 years of age, his father removed to Dummer, where the family lived until the beginning of the Rebellion. Just previous to the war, Summer married Victoria Crafts, a union which was blessed with 11 children.

At the breaking out of hostilities, Sessions enlisted from Coos County, N. H., on the 12th of August, 1862, for three months or during the war. The next month he was mustered into the service at Concord, N. H., in the 14th Maine Infantry; and in the latter part of October he accompanied the regiment to Washington, under command of Col. Robert H. Wilson. The regiment was assigned to Gen. Grover's Brigade, on picket duty along the Potomac. The next April it went into camp at Washington, having seen sharp service at Harper's Ferry.

From Washington, his service led him to New Orleans, Camp Parapet and Morganza Roads; then back to Washington again and later into action at Berryville, Winchester Heights, Fisher's Hill and Cedar Creek, the regiment losing more than 200 men. At Winchester, Sessions was wounded and shortly after the battle he was stricken with dysentery, the effects of which endured until his death, ruining his eyesight and shattering his once rugged health. In spite of disease, Sessions left the military hospital in 1863 and rejoined his regiment in time to march through the Shenandoah Valley, about which place many of his thrilling war stories centre. When the war closed he received his honorable discharge at Savannah, Ga., and came north by sea. Out of the regiment of 1030 men, only 250 were mustered out. For many years he has been a pensioner of the United States in recognition of his services in preserving the Union.

After the war, Sessions moved to East Milton, where his wife died and where he afterward married Luella Coffin. Some years ago he came to Milton, Maine, and in 1906 to Hyrant's Pond, where he purchased the Alden Chase stand, a commodious house, hoping to enjoy a peaceful old age. Fate, however, willed otherwise and on the 14th of May he was laid to rest in the cemetery at East Milton. The funeral services were performed in the Baptist church at Hyrant's Pond, with military music and the escort of A. M. Whitman Post, No. 67, G. A. R., of which at one time he was a member. Rev. J. L. Pinkerton of Rumford Centre presided at the funeral service. Mr. Sessions is survived by a widow and eight children. For the past few years his sufferings have been such, that in spite of his unflinching bravery, rest comes to him as a welcome relief.

Francis F. Chase has accepted the position of foreman in the Rumford Falls Times office in place of Robert G. Johnson, resigned.

The program will be announced later.

THE BARRY FAMILY.

The happiest family in Gardiner, Me., is that of W. D. Barry. By taking Father John's Medicine, Mr. Barry has overcome an alarming hacking cough that threatened to take him down and I had taken many remedies, but they did me no good. At last I tried Father John's Medicine and I found relief in the first bottle. Nobody knows how to appreciate Father John's Medicine until they are sick and the doctor tells them they are in consumer tion. I would have been in my grave but for Father John's Medicine. That wonderful remedy was my doctor, and always will be. My family and friends have also used Father John's Medicine with splendid results." (Signed) Wm. R. Barry, Gardiner, Me.

Something ought to be done with the four children that roam up and down Main street, catching on teams and passing electric. Unless there is, some of them will get hurt and then there will be bills for injuries for the town or some one else to settle.

The Bridgton News says:—A large salmon, mounted by Nash of Norway, is on display in the show window of the Larrabee store at Pondicherry square. It is good for the fishermen to stop and gaze at this piscatorial specimen as they return from the fishing grounds after a hard day's work, empty handed, sun burned and disgusted. As they drag themselves up over Methodist Hill, many of them cannot help pondering on what might have been.

One of our well known lawyers, likewise a lawmaker, owns a dog, "Obediah," by name, who enjoys chasing the teams of one of the local physicians. At present "Obie" is laid up with a severe case of ptomaine poisoning.

The lawyer prepared a piece of meat with some rat poison for the benefit of the rodents who infested his chicken coop. "Obie" following up the scent of the meat came upon the choice morsel, and in his ignorance of the pure food law didn't stop to read the label, but bolted the tid-bit. Result a very sick dog, a worried son and a busy physician.

Perfect Womanhood

The greatest menace to woman's permanent happiness in life is the suffering that comes from some derangement of the feminine organs. Many thousands of women have realized this too late, and have had to live, barely in time to save their lives.

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study.

A woman finds that her energies are flagging, that she gets easily tired, dark shadows appear under her eyes, she has backache, headache, bearing-down sensations, or the "aches," she should start at once to build up her system by a tonic with specific powers, such as

Lydia E. Pinkham's Vegetable Compound

the great woman's remedy for woman's ills, made only of roots and herbs. It cures Female Complaints, such as Dragging Sensations, Weak Back, Falling and Displacements, Inflammation and Ulceration. It dissolves Organic Diseases, and is invaluable in the Change of Life. It dissolves Expansive Tumors at an early stage. Subdues Faintness, Nervous Prostration, Exhaustion, and restores the strength and vigor of the whole female system. It is an excellent remedy for derangements of the Kidneys in either sex.

Saving Things.

What sort of insane folly is it that possesses some of us at times and makes us save all our odds and ends of every description under the delusion that they will "come handy," some time? They never do "come handy," but we cling to them with great tenacity, instead of having the goodness to bestow them on the ashman as his rightful prerogative.

My wife and I have well developed economies. I remember and we pride ourselves on never wasting a thing that may "be useful" or "come handy" at any time in the dim future.

I have read of men of wealth who traced the beginning of their riches back to the time when they carefully saved a piece of twine, never cutting it from a bundle, but carefully untying it and laying it away for future use, until they must have had a barrel or two of old twine lying around some place.

On an example of this sort of fellow, I read of a millionaire of this getting out of his carriage and picking up a rusty nail he saw by the roadside, and I emulated his example until I had about forty pounds of old rusty, bent and broken nails lying around my place.

One day I went to a pound or two of them in trying to find one that I could drive into a board without bending or breaking. At last I sold the lot for old iron and got ten cents for them. The day I began to reform. The other day I began to reform my wife.

I was cleaning out the accumulation of years in a closet in the basement, and piling most of its contents up for the ashman, when my wife came downstairs. "There are some things in that closet I want saved," she said. "They'll come handy some time." But I resolved to be firm.

"You don't want this?" I said, holding up an old teakettle without any spout and with six big holes in the top of it.

"Well, it might come handy for something some day," I said.

I tossed it into the ash barrel and held up a pair of very old boots discarded four years ago and now green with mold.

"No use in saving these, is there?" I asked.

"Well, I don't know. A little piece of leather often comes handy in a house for a hinge or something," I called.

I called once more, and the boots followed the teakettle.

"What do you want this rusty old hoop skirt for?"

"Oh, a piece of hoop skirt very often comes handy in a house," I said.

"It hasn't been asked for in this house since it was built," I said. "Here's an old hat of mine that has been lying around nine years. Better throw it away, hadn't it?"

"Well, perhaps so. I've often thought of giving it to some poor man, but I forget it every time a tramp comes around. I gave it to one tramp and he went off and left it on the front gate-post."

"Showed his good taste," I said.

"Yes, I'll have them all mended some day. I've intended having it done for five years." When her back was turned they went into the ash barrel with the rest.

"No use in saving these old bottles, eh?"

"Well, a bottle's a handy thing to have around. Better save them."

"My dear," said I, "there are at least seventy-five old bottles, and any sane knowledge we don't use one a year, and I think we can trust our great-grandchildren to get their own bottles; so here they go."

In the same daring, reckless way I threw away three old brushes, old bonnets, breeches, lamps, skillets, hair combs, shoes, sawdust, tin pans, old papers, popcorn, wormy walnuts, soap, broken lamps, spoutless teapots, bottomless coffee pots, cracked kettles, and ten thousand other articles that had waited their turn to "come handy," but which never would or could "come handy" in this world.

Commander Robert E. Peary, in a telegram, has authorized the beginning of a collection by the schoolchildren of Oregon, to make up the \$60,000 necessary for the starting of another expedition to the North Pole. May 22d will be designated as "Peary day."

Nearly half the popcorn consumed in the United States is raised in the small county of Sao, in the northwestern portion of Iowa. There it has been found that the corn is particularly adapted to its cultivation.

By vote of the censors of the Maine Medical Association, an annual meeting of 1907 will be held in Lewiston, Wednesday, Thursday and Friday, June 12, 13 and 14.

After considerable deliberation on the part of the athletic council of Hebron Academy it has been finally decided that Hebron will send no track team to the U. of M. interscholastic meet this spring.

The unwritten law seems to be the refuge of the unred lawyer.

Bolster's Mills Tel. & Tel. Co.

On Friday, May 10, M. P. Abbott, general manager of the Maine Tel. & Tel. Co., whose headquarters are at Livermore Falls, visited Norway and with A. J. Stearns went to Bolster's Mills to attend a meeting of the stockholders of the Bolster's Mills Tel. Co.

About 650 out of the \$50 shares of stock in the company were represented. It was voted unanimously to consolidate with the Maine Tel. & Tel. Co. which will be done as soon as the latter company complies with the provisions and ratifies the consolidation. This is not an absorption of the Bolster's Mills line, retaining their stock in the company, which will come under the control of the Maine Tel. & Tel. Co., giving the people on the Bolster's Mills line, a large extension of territory, night service, and every convenience of an up-to-date telephone service.

There were many ideas advanced for the spreading of the business and increasing the territory by the Bolster's Mills line, but there was not enough capital to carry the scheme through successfully, consequently the consolidation. The officers of the Bolster's Mills Tel. Co. are:

Pres.—E. L. Gay.
Clerk.—A. F. Chute.
Treas.—A. J. Stearns.

Shurtlett-Lane.
Wedding bells were heard last week
Wednesday, May 8, when Lola Adams
Lane and Arthur Kingman Shurtlett
were united in marriage. At 1 o'clock
p. m., while Della Lane, an aunt of the
bride played Lohengrin's Wedding
march, C. Howard Lane marched in with
his daughter Lola on his arm, preceded
by Evie H. Bridge of Mechanic Falls, a
cousin of the bride as bridesmaid, who
were met by the groom and Clarence
L. Ridlon as best man.The two young ladies and gentlemen
advanced to an evergreen arch arranged
across a corner of the room and knelt
during the double ring Episcopal service
which was performed by Rev. D. F. Nel-
son of Conway, a friend of the family
and former pastor in this place. A re-
ception and social time followed during
which Miss Lane played Mendelssohn's
Wedding march and Emma Shurtlett of
South Paris a sister of the groom read
the poem, "Wedding Vows." About 40
guests were invited including the im-
mediate families and a few friends who
were treated to a delicious wedding
lunch consisting of fruit punch, fancy
cakes and fruits. Mrs. Maria Johnson
served as caterer. The wedding cake
was cut and served by the bride.The bride was dressed in a dainty
white muslin and veil fastened with a
diamond and spray of sunilax and wore

white prayer book. Her traveling dress
was brown. The rooms were hand-

NORWAY AND VICINITY.

Little Boy Lost.

Mrs. W. W. Holt and her little son
live up in town were in the village
one day. Master Holt enjoys looking at
the birds and animals in J. W. Nash's
sidewalk rooms, so his mother had
come "running around" to do she told
he might go there and enjoy him-
self. She also named the places she was
going to if he wanted to find her, and
among others mentioned "Smiley's".
The Nash rooms did not happen to be
open, and the youngster went to "Smi-
ley's", or rather he went to the E. N.
Shoe Store that was formerly
Smiley's Shoe Store. The little
boy waited awhile and then lay down
and fell asleep on one of the soft uphol-
stered benches, close to and somewhat
shaded by the high back.
Meanwhile the mother had finished
shopping and started to find her boy.
She went around to the several places
where she told her boy she was going
as her "Smiley's" and then to Thomas
Smiley's she did not go to the shoe store,
she was getting up quite a good-sized
shopping party when the boy was found
roused from his sound sleep.It is understood that C. S. Whitney,
who was turned out in Harrison and lost
much in the recent fire, will rebuild
mill and go on with his business.
